

# Parental Questionnaire: Digital Literacy in Our School

## Section 1: Background & Access

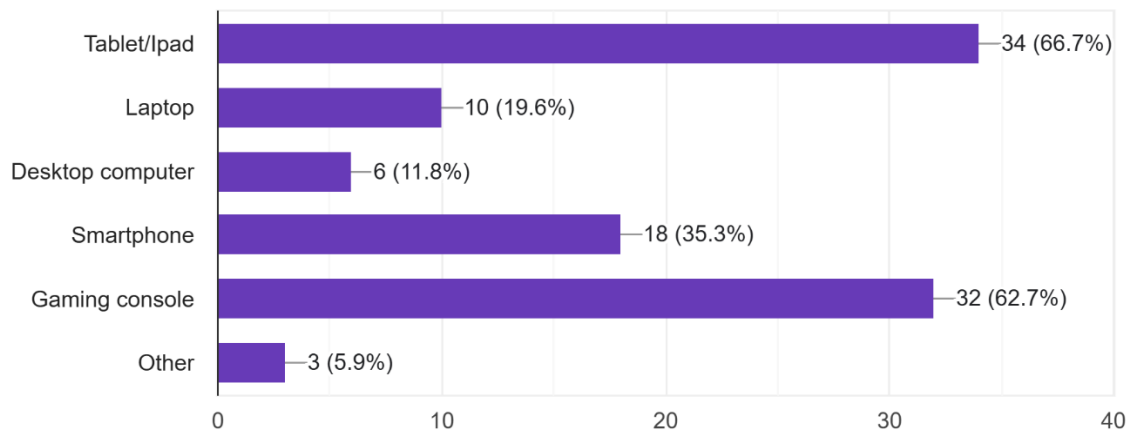

1. Does your child have access to a digital device at home?

52 responses

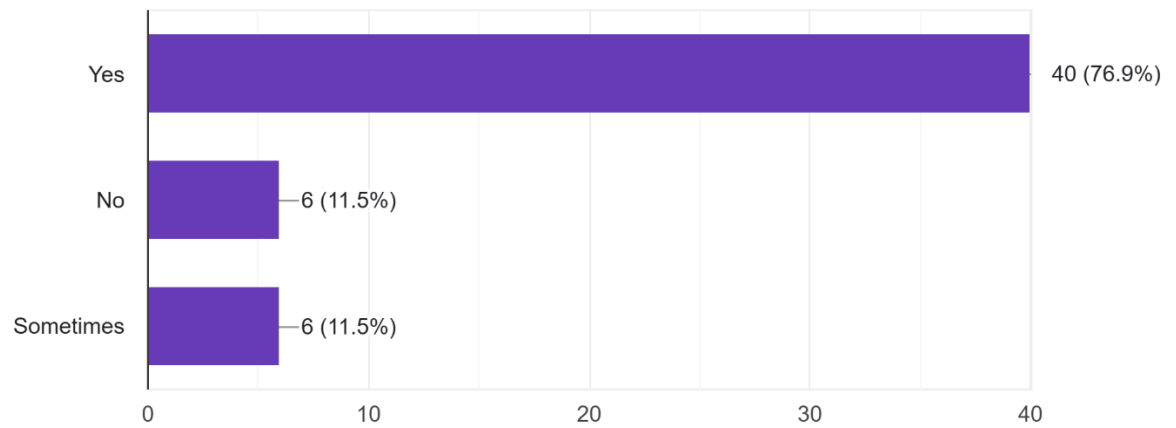

If yes, which devices does your child use most often?

51 responses

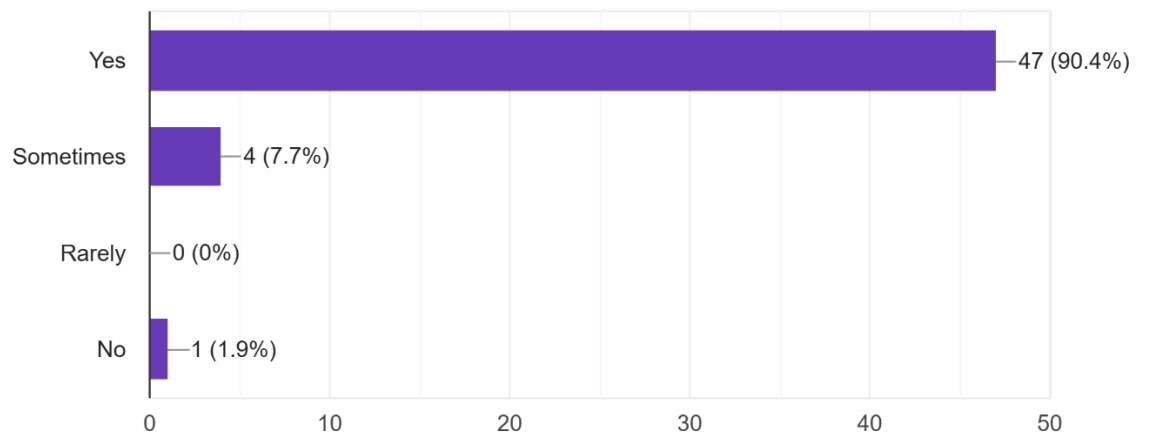

### 3. Does your child have regular access to the internet at home?

52 responses

### 4. Do you feel your home internet is reliable enough to support your child's learning?

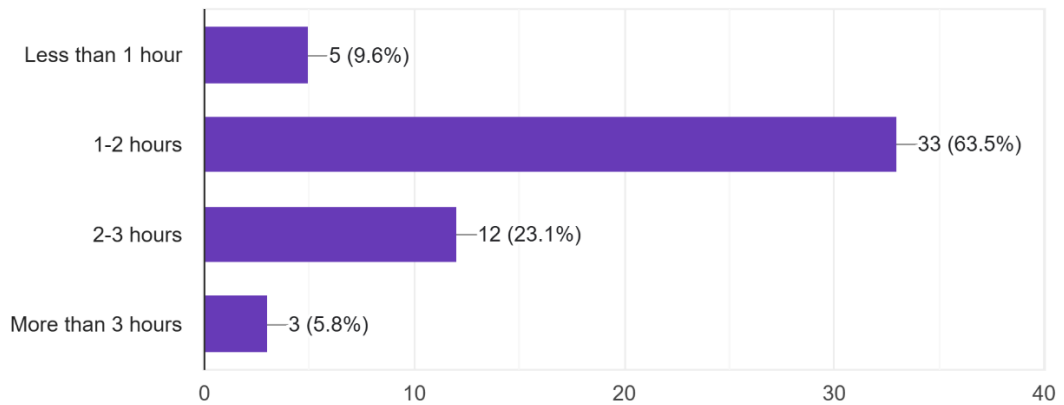

52 responses

## Section 2: Digital Use at Home

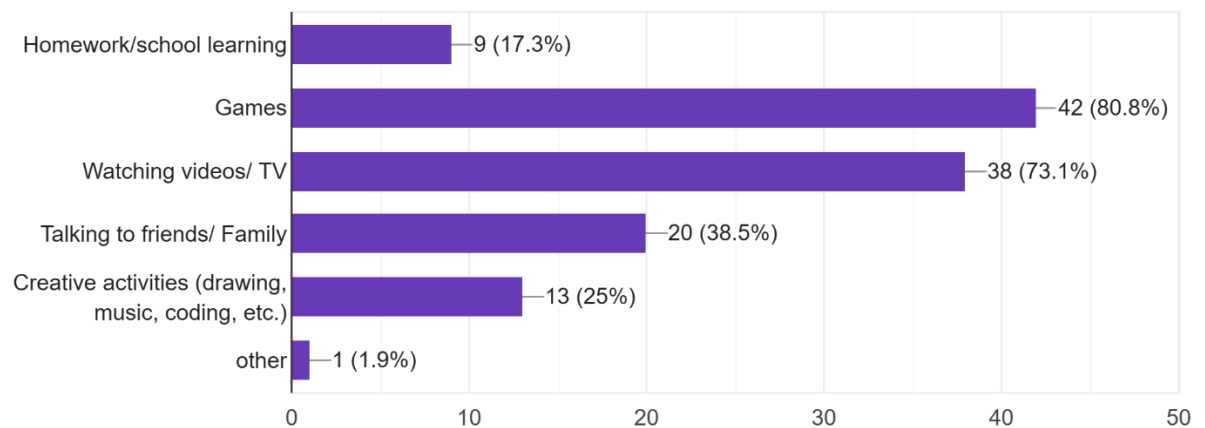

5. On a typical school day, how much time does your child spend using digital devices (outside of school)?

52 responses

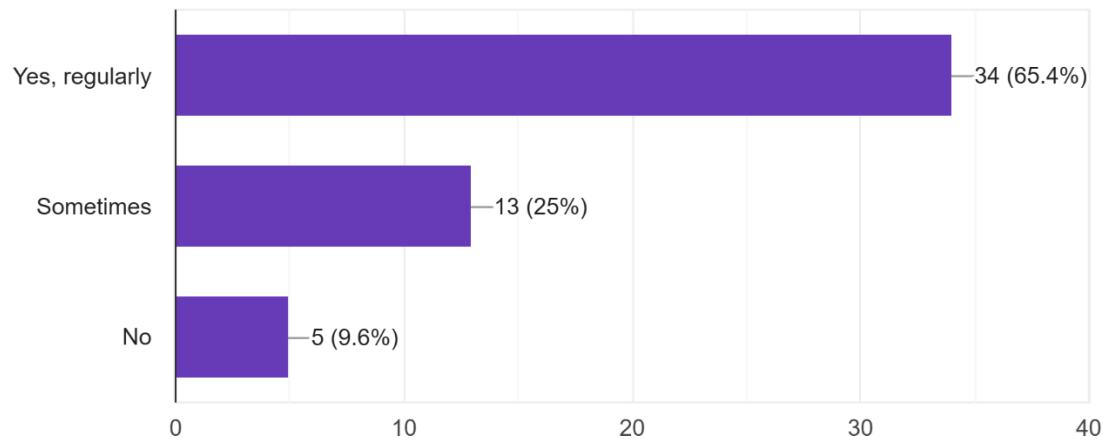

6. What does your child mainly use digital devices for?

52 responses

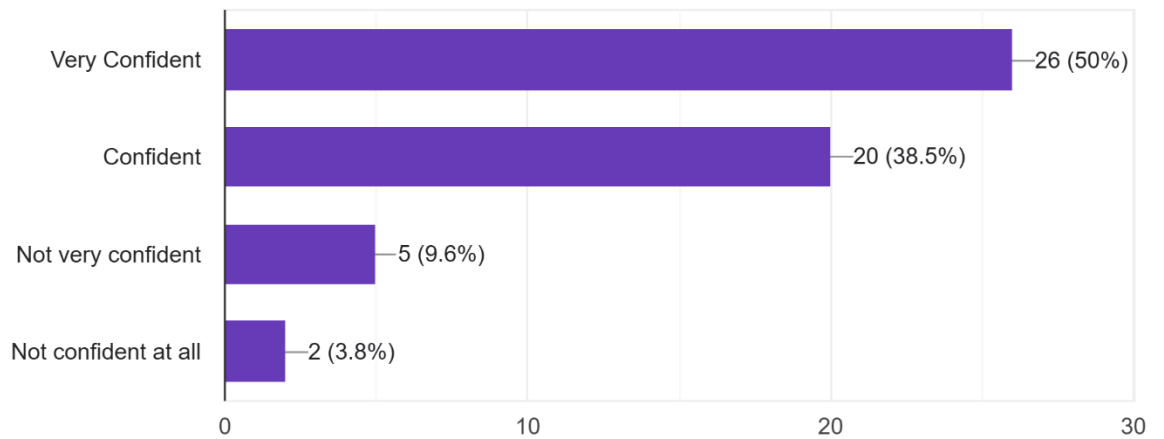

### 7. Do you use parental controls, screen time limits, or monitoring tools?

52 responses

### 8. How confident are you in supporting your child with technology-related homework?

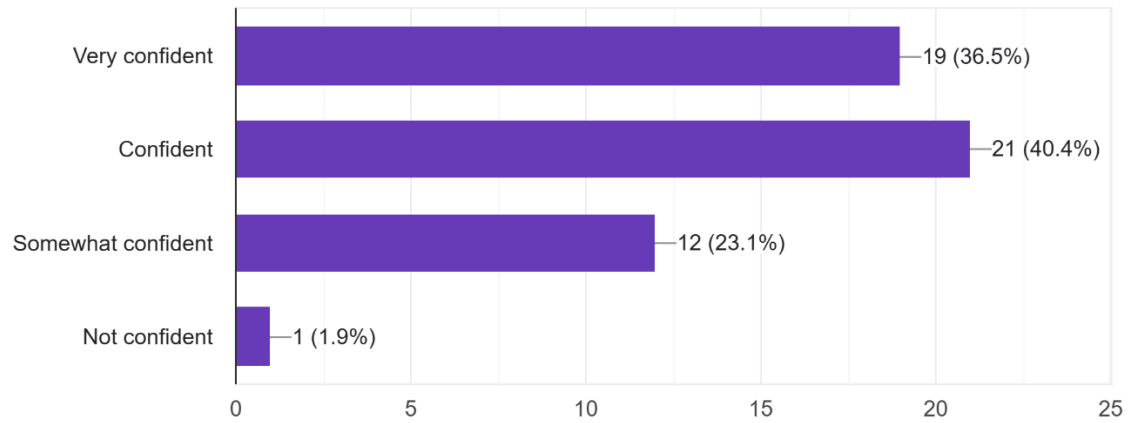

52 responses

### Section 3: Digital Skills & Confidence

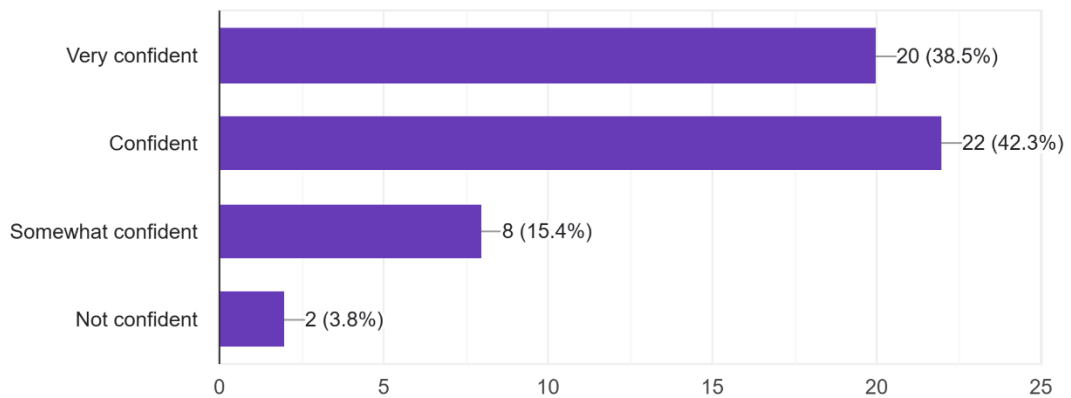

#### 9. How confident is your child in using digital tools for learning?

52 responses

#### 10. How confident do you feel in guiding your child in developing safe and effective digital skills?

52 responses

11. Are there specific digital skills you would like your child to develop further?

No

Coding

Typing

Not sure

I'm no sure about this.

I would like my children to be more aware of cyber bullying and people pretending to be others online

Understand that the internet is not always safe. Know the importance of asking for help from parents before sharing information.

Less screen time the better but it's ok if it's for learning

At the moment I think its in the child's best interest not to have access to Internet i feel she is to young

To learn more about software and to set it up.

Not really

Not everyone online is a friend

Gain ability to develop programs and coding

No

Can't think of anything

use of business type applications (MS Word, Teams, Excel etc)

Coding and software development.

Computer literacy, technical knowledge

Understanding and use of AI as a tool and not a source of "truth"

Basic computer skills

Just knowing how to be safe in a digital world.

Yas

not at this time

How to control and use it properly

Using tools properly to create work. I don't want my child passively using content

Coding

Not that I can think of

Just general use of day to day applications of Microsoft will be very beneficial

Not at present

Not to my understanding

Coding, AI tools & integration

I know in secondary school they learn digital safety

Safe use of the Internet.

Typing

Word processing and literacy

Coding and designing software for 3D printing, graphical design, power point and typing

Basic coding maybe to see if he has a talent in it. Not really digital skills but would like the school to impart the message that everything they see or read on the internet may not be true...

online awareness !!

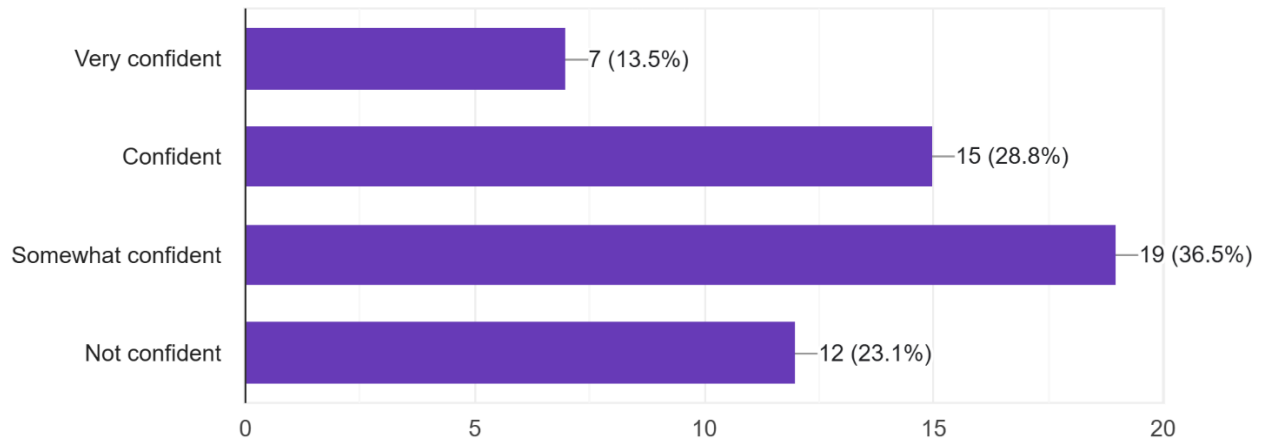

using word, coding, photoshop etc

Internet safety/ awareness of AI gen media, To learn about computers and laptops

## Section 4: Online Safety & Wellbeing

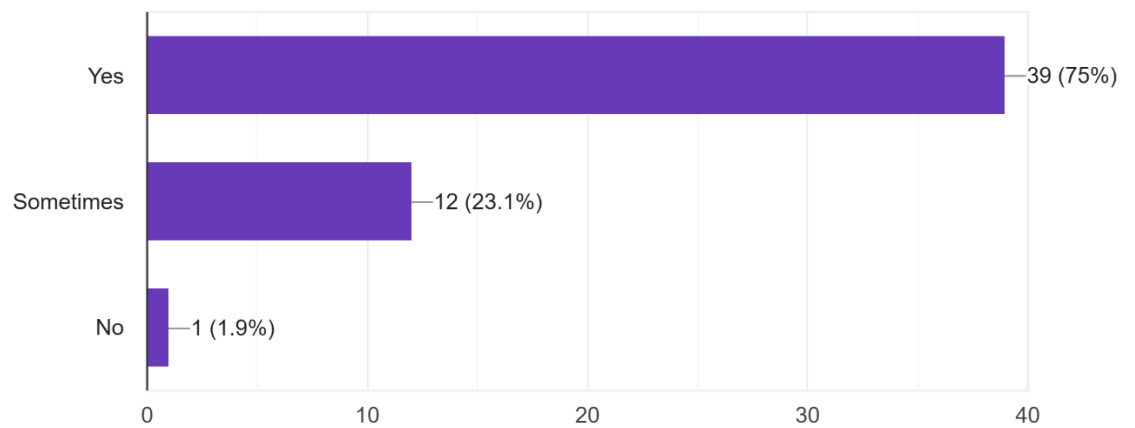

12. How confident are you that your child understands how to stay safe online?

52 responses

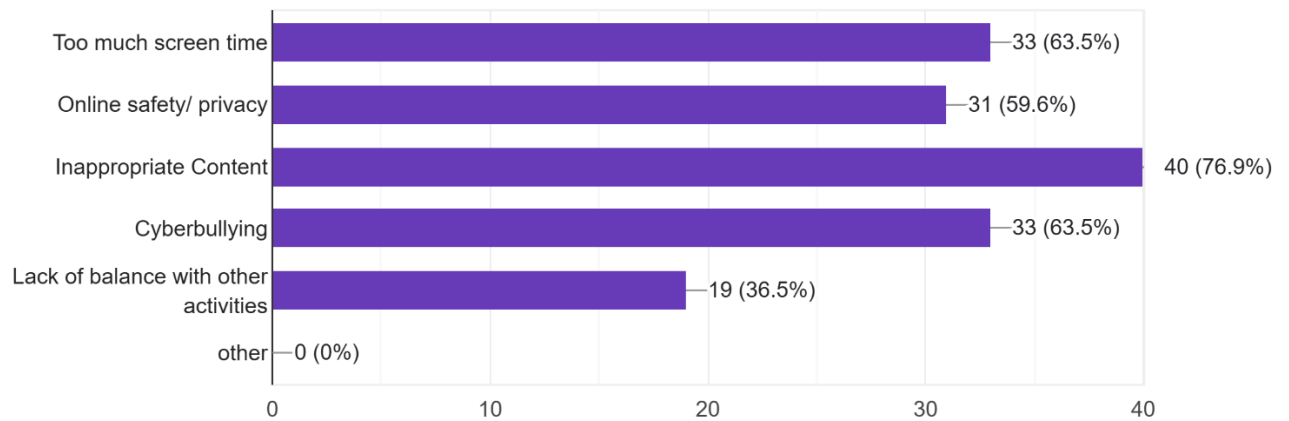

13. Do you regularly talk with your child about safe and responsible internet use?

52 responses

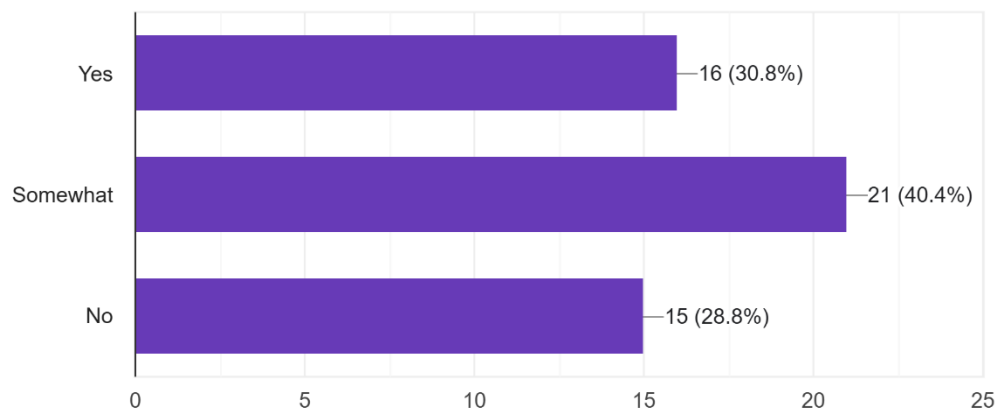

#### 14. What are your main concerns about your child's use of digital technology?

52 responses

#### 15. Are you aware of the school's policies on online safety and responsible use of technology?

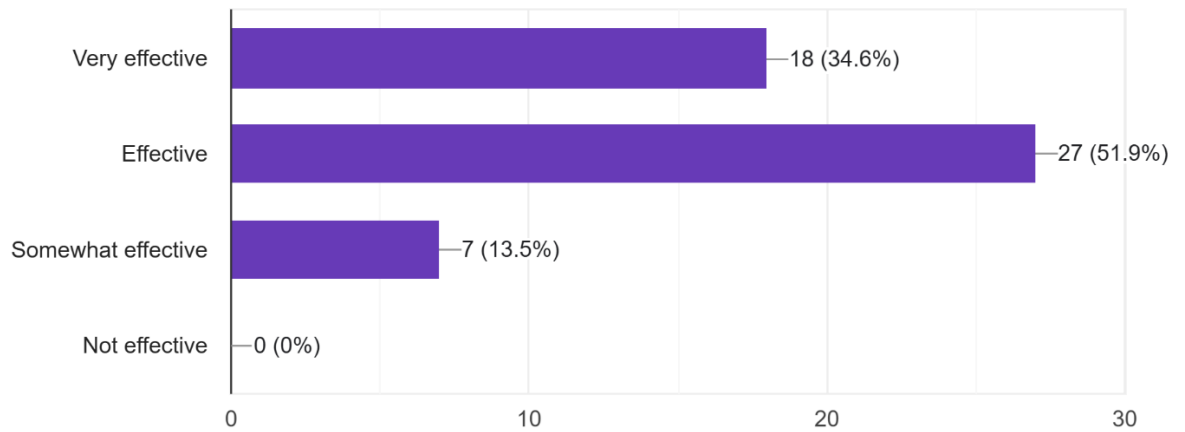

52 responses

## Section 5: School-Home Connection

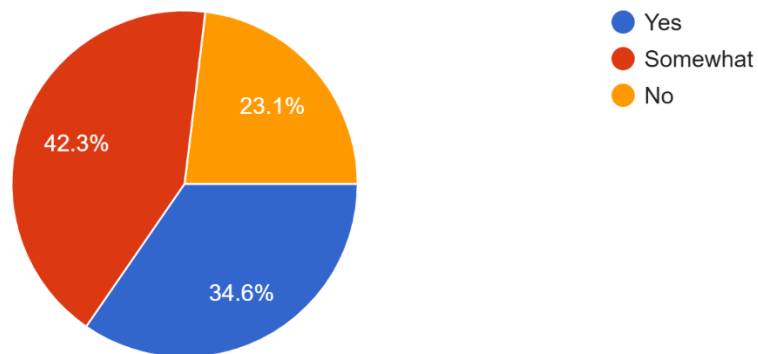

16. How effective do you find the school's use of digital tools for communication with parents?

52 responses

17. Do you feel the school provides enough guidance and support for parents around digital literacy?

52 responses

18. Would you be interested in attending workshops or receiving resources on digital literacy and online safety for families?

52 responses
