11 responses

Learning about more apps
how to create my own worksheets and interactive games
Google workspace for education
Unknown
See above
tools and apps suited to different subjects and class level. Step bu step instruction
Chrome Books, online safety
Any. I'm eager to learn but lack confidence. However, with some training it would give me the confidence to try out new IT teaching techniques to move with the times.
Safety, interactive tools
safety online, coding, general upskilling
unsure
